NATIONAL HEADQUARTERS
WASHINGTON, JANUARY 24, 1942

Subject: Training Program - Organization of Civil Air Patrol

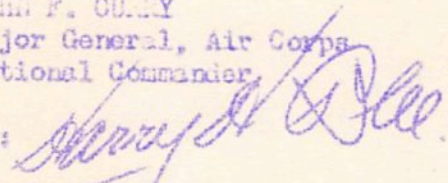

To: All Wing Commanders

1. From the standpoint of the success of the Civil Air Patrol Training and Operations Program, it is important that all members of the Patrol be familiar with the organizational set-up and the chain of command. To this end we are sending you under separate cover additional copies of the enclosed Organization Chart Showing Wing Cross-Section.

2. It is requested that copies of this chart be forwarded to all units under your command with instructions that a copy be conspicuously posted at each Unit Headquarters for the information and guidance of all concerned. Also, it is recommended that in initiating the Training Program each entering class be given instruction in the organization of the Patrol and the functions of the several command and staff offices.
